

MODULAR. MOBILE. ROTATIONAL.

- Glide 360 Horizontal Rail provides a 2.15m offset and includes a trolley rated for one user
- 360° Rotational Mast allows for a 1.8m working radius from the anchor point (trolley)
- Jib lifting point for modular base use
- All hardware Zinc Plated or Stainless Steel
- Powder Coated in Safety Yellow
- Fixed or adjustable height configurations
- Steel and Aluminium construction; strong, lightweight and cost-effective
- Rotational locking pin holes every 11 degrees. Can either prevent rotation completely or limit the rotation to a specified range using magnetic stop tabs
- AS/NZS Compliant

System shown with optional leveling jacks

FLEXIGUARD™ ENGINEERED MODULAR UNIT

Anywhere an Overhead Anchorage Point is Needed for Fall Protection

The highly customisable Engineered Modular Unit (EMU™) is a modular system designed for easy adjustment that maximises flexibility without sacrificing safety. The lightweight design allows for easy mobility around the jobsite with a forklift. Available in a variety of configurations to fit virtually any need.
